

HOP REPORT

MONTH - June

YEAR	2014	2013	30-years average
avg. temperature	16,6	16,5	16,7
precipitation	23,6	128,6	56,0
	Day	Value	
max. precipitation	25.06.2014	14,8	mm
min. temperature	02.06.2014	4,6	°C
max. temperature	10.06.2014	35,1	°C

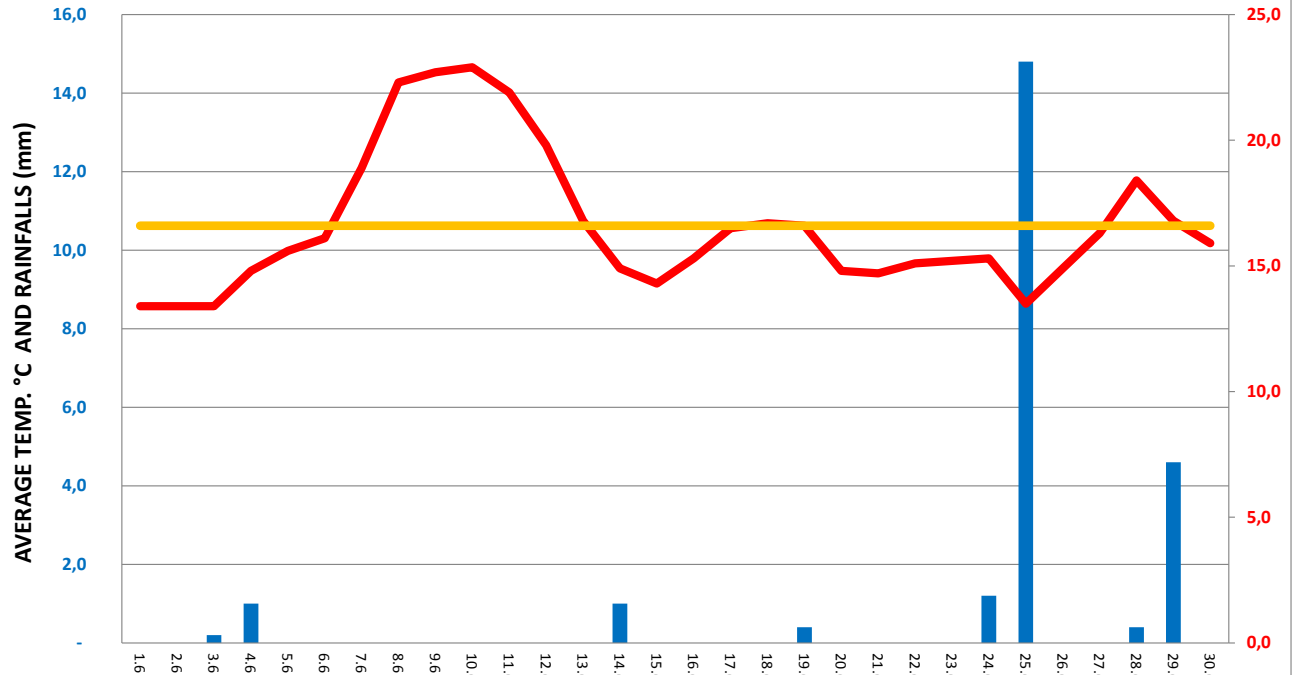

Comments	June was on average as to temperatures and much below average as to precipitation compared to 30-years average. Significant precipitation fell only on 25th June. The most of hopgardens didn't suffer from lack of water (reserves from previous month). Some hopplants didn't reach the top of the trellis yet but most of them started to sprout (side branches). Chemical protection against downy mildew, aphides and red spider mite was effected. The hopplants are in good health condition.
