max. temperature	06.06.2015	32,1	°C

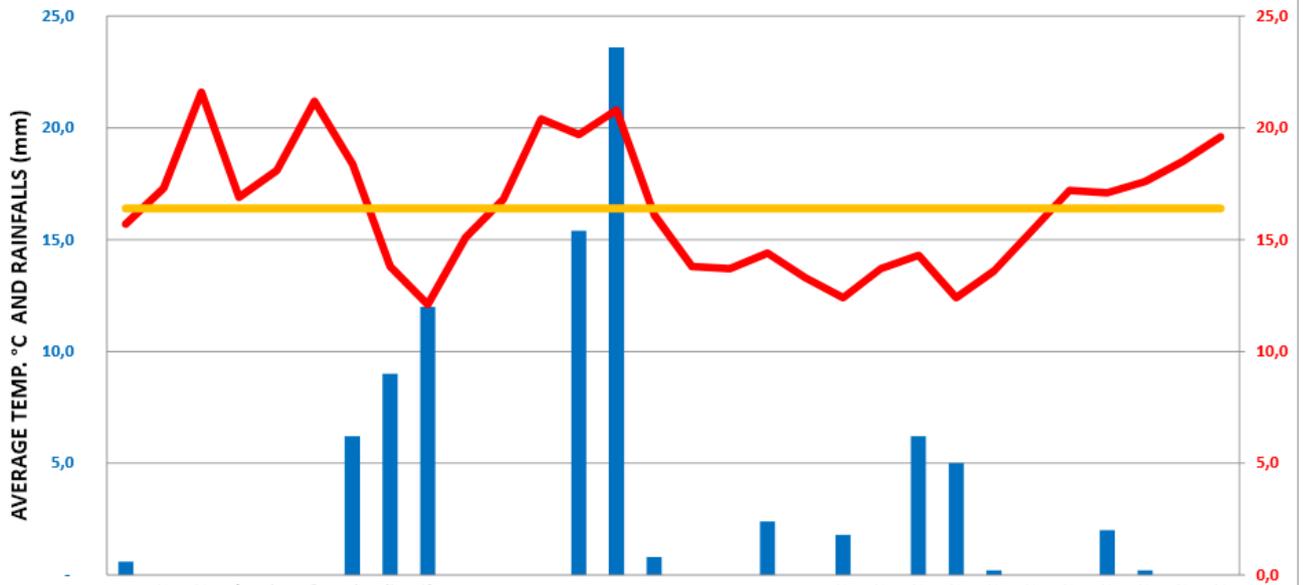

Comments	June was below average as to temperatures and above average as to precipitation compared to 30-years average. Most of hopplants already reached the top of the trellis and most of them also started to sprout (side branches). The hopplants are in a very good health condition. Chemical protection against downy mildew, aphides and red spider mite was effected in time.
